Bantu
Blockchain Foundation

A global blockchain infrastructure that empowers humanity

...Built by Africans

Bantu
Blockchain Foundation

Vision

Our vision is to become the largest distributed network infrastructure with the most decentralized governance model for wealth creation and economic sovereignty for humanity.

Mission

Our mission is to empower humanity across all industry sectors, both public and private using blockchain and other 4th Industrial Revolution (IR) technologies.

Team*

The Bantu Blockchain Foundation is currently made up of 27 dedicated African team members spread across 7 workstreams on 3 continents.

They are among Africa's leading blockchain professionals who have been in the industry since the early days of blockchain.

The team members also have decades of professional experience in banking and finance, cybersecurity, fintech innovation, compliance, law enforcement, governance, business and intellectual property law, and large-scale technology infrastructure deployment.

The team continues to grow every month.

	Explorer	BantuTalk Forum	

*Will be shared during demo

Bantu
Blockchain Foundation

Target Users, Organizations and Industries

While our infrastructure, apps, and network tools will directly target millions of users, we are also able to support and add value to the following organizations and industries.

Banks and Financial Institutions

Governments and Regulators

Supply chain and FMCG industries

Healthcare, Educational, Agricultural and Transportation services

Remittance and Payment Service Providers

Oil, Gas and Energy industries

Developers and Tech Startups

Micro, Small and Medium Enterprises

Bantu
Blockchain Foundation

Impact

Bantu will enable a pan-African blockchain market infrastructure that unifies the secure issuance, trading, settlement, clearing and custody of digital assets in all their manifestations and mutations in real time, thereby unlocking the capital trapped in the informal sectors of the economy which will positively impact the GDP of the continent.

Thank You

The Spirit of Ubuntu
